

EUROPE

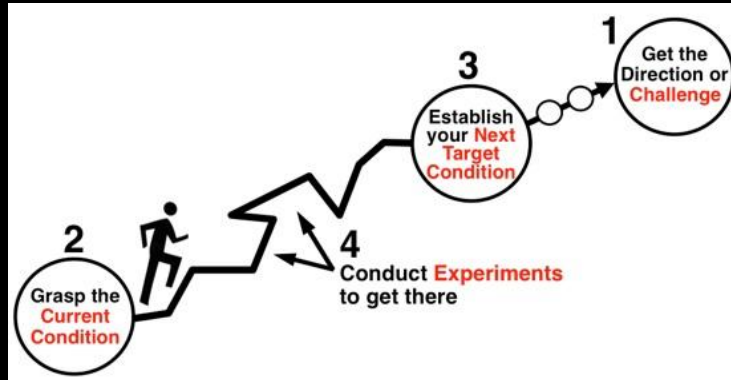

THE FINAL COUNTDOWN

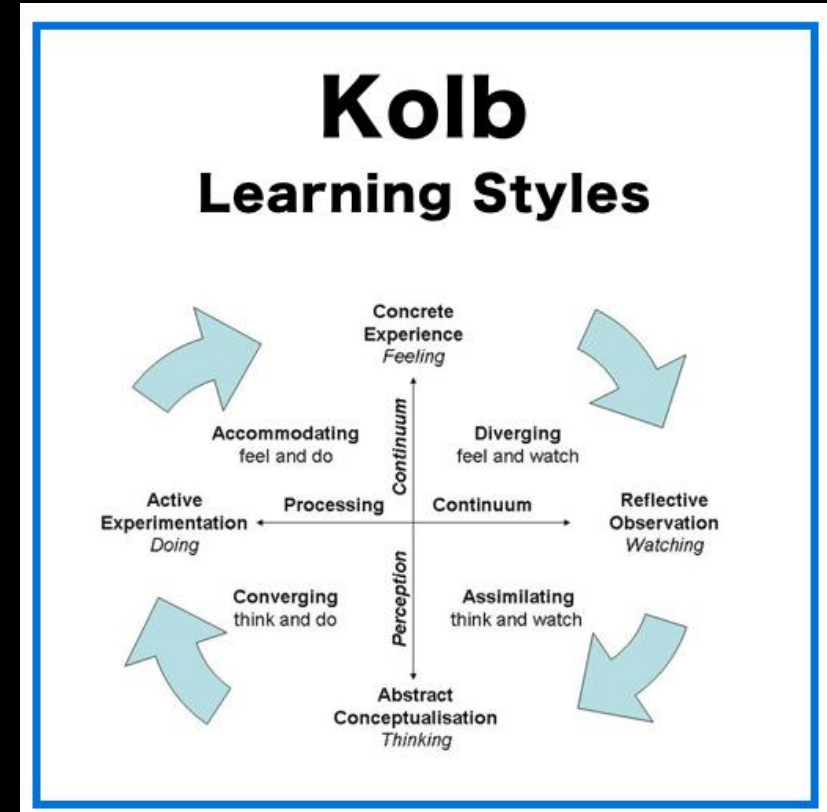

b/w **ON BROKEN WINGS**

A 7127

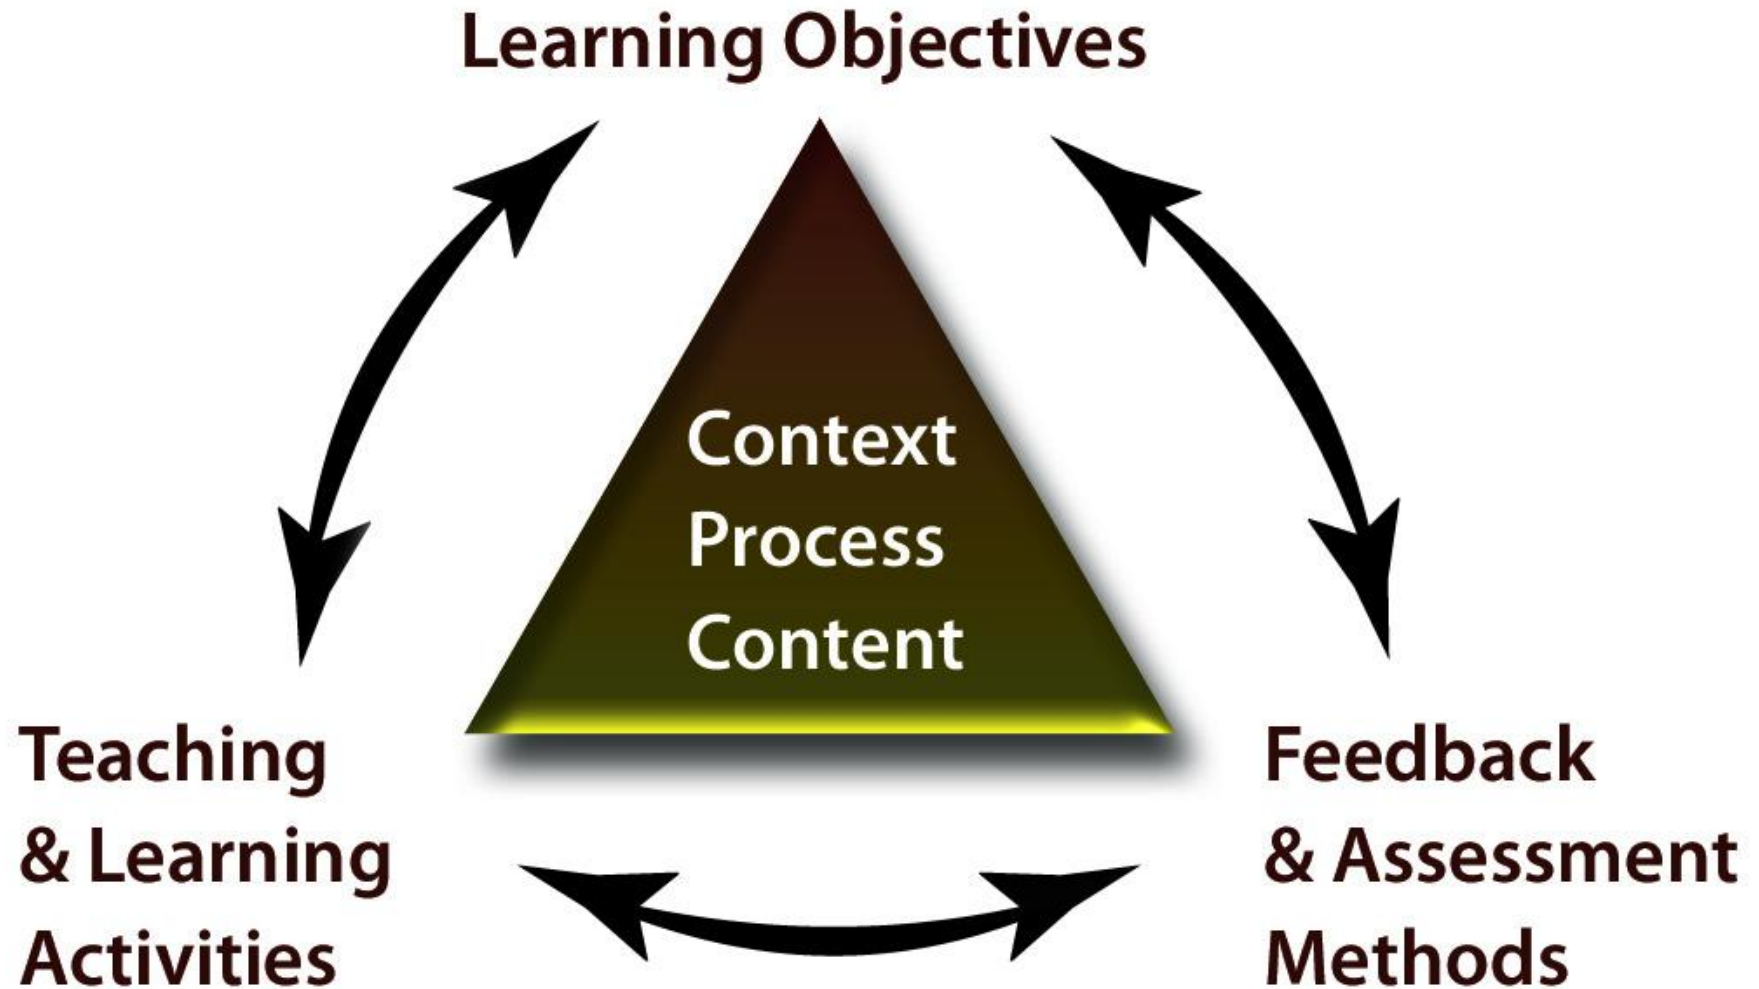

Plan-Act-Reflect Cycles

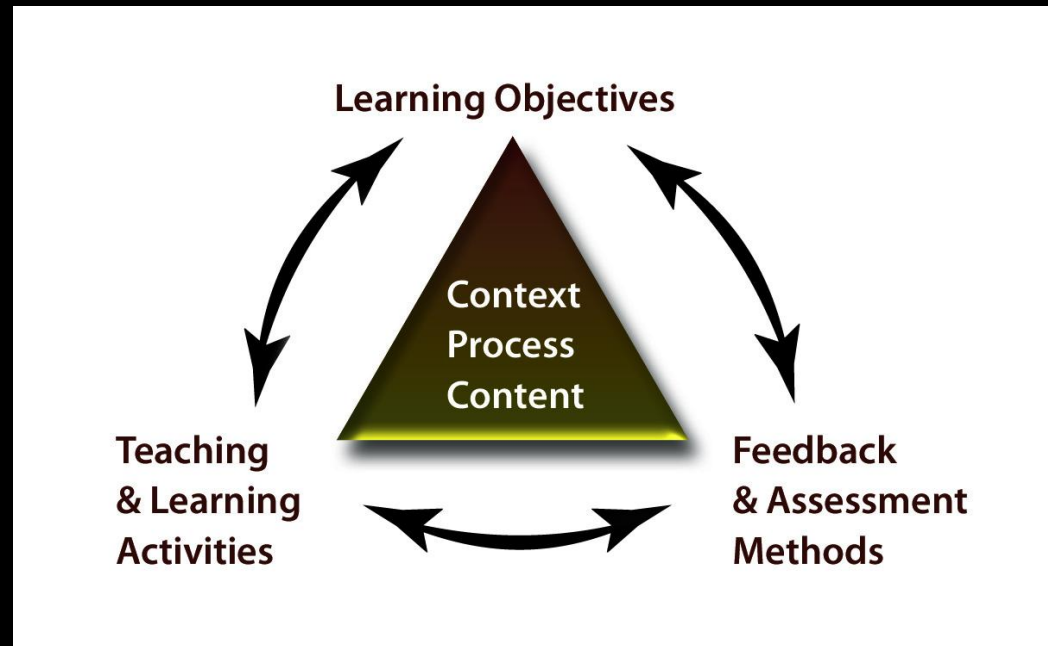

What is in relation to what might or should be and includes feedback to reduce the gap

Constructive Alignment

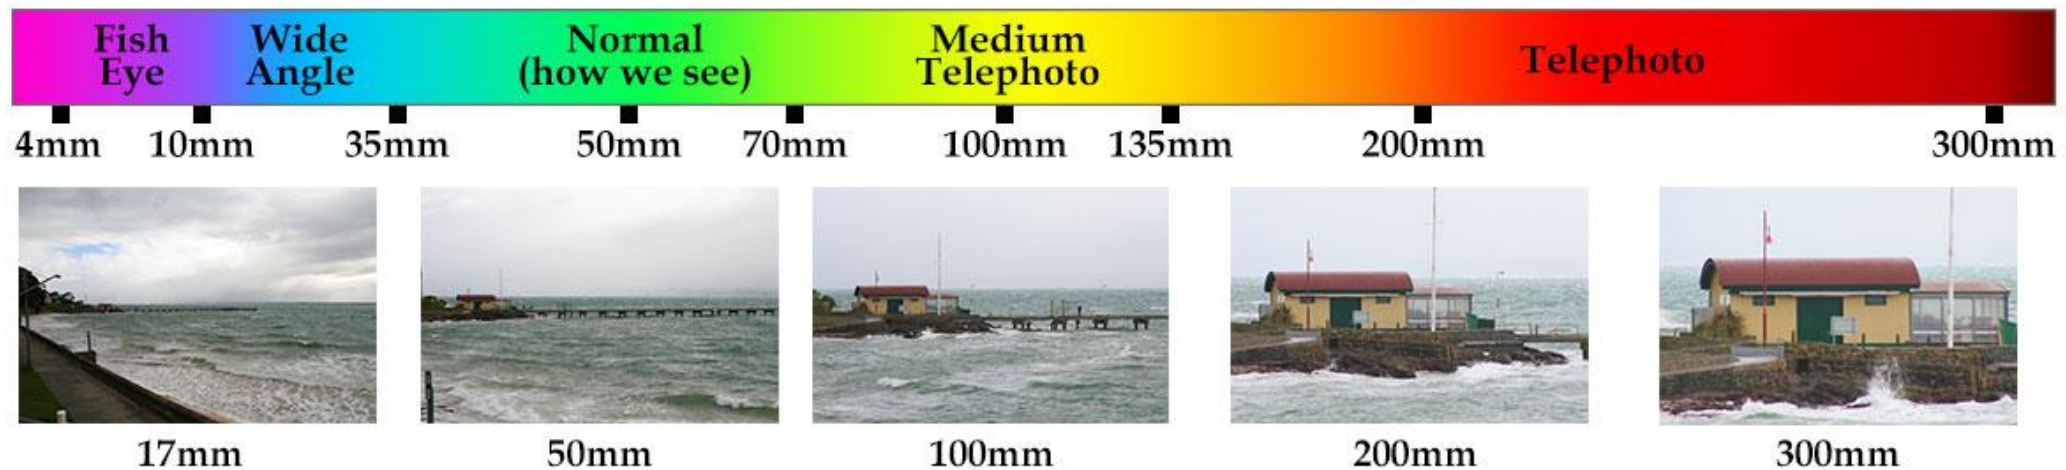

Program ↔ Course ↔ Activity
 Goal ↔ KPI
 Reference ↔ Controller ↔ Sensor data
 Requirement ↔ Costs

Creating Meaning

Useful Focal Lengths

Used For...

Architecture,
Landscape

Street,
Documentary

Portraiture

Sport, Birds, Wildlife

Learning Objectives

Knowledge & Understanding

Skills & Abilities

Judgement & Approach

Taxonomy

Factual
Contextual
Procedural
Meta-cognitive

Knowledge & Understanding

The student should be able to ...

analyse

development

identify

such as stakeholders and requirements

evaluate

Solution, and the Endeavour as well as the different methods used for each

Skills & Abilities

The student should be able to ...

... elicitate requirements from and design a solution to a real-world problem

project in a team

relevant courses in a project-like environment

own

Judgement & Approach

The student should be able to ...

identify

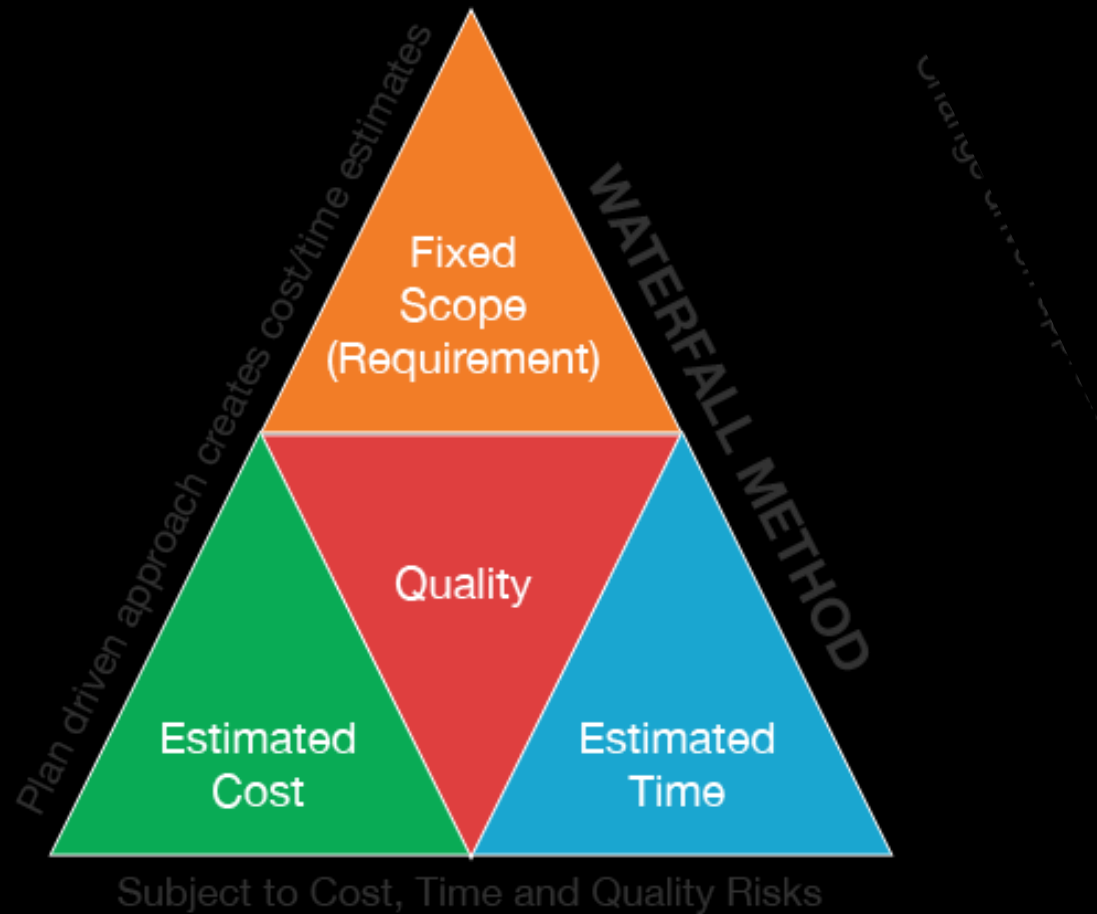

methods used in the project

DEMO

- October 19th
- Navet Lindholmen Science Park
- Two sets: 13.00 - 15.30 & 14.30 – 17.00

PROJECT TRIANGLE

Stakeholder Value 12p

Completeness 3p

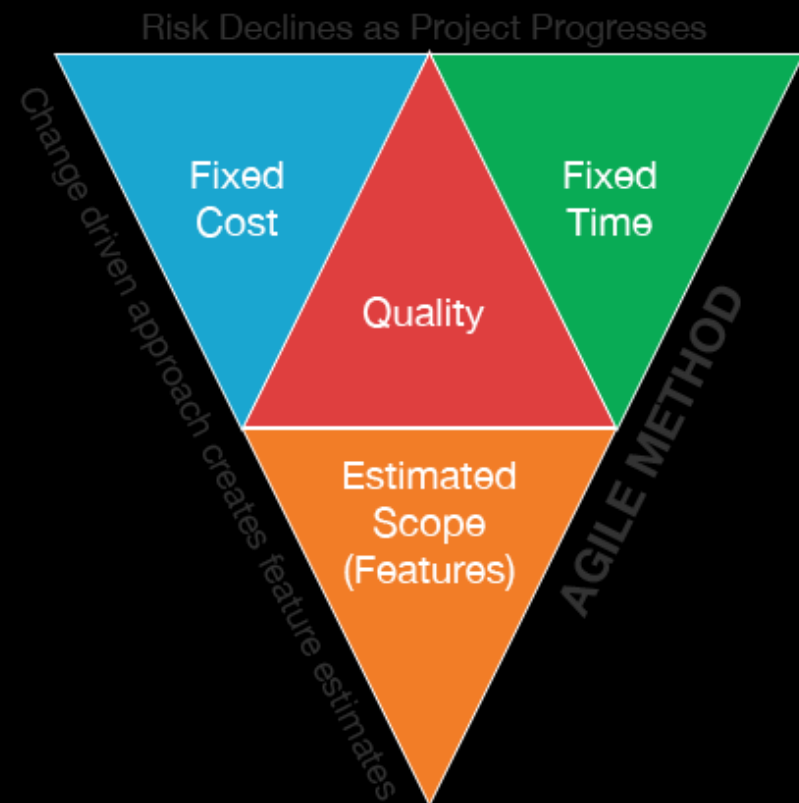

GUI 3p

User stories 3p

Design rationale 3p

Choice of languages

Additional hardware

Servers

Simulation environments

...

Overview

Parallel Streams (Additional APIs)

```
List<Integer> numbers = new ArrayList<>();  
for (int i = 0; i < 10_000_000 ; i++) {  
    numbers.add((int)Math.round(Math.random()*100));  
}
```

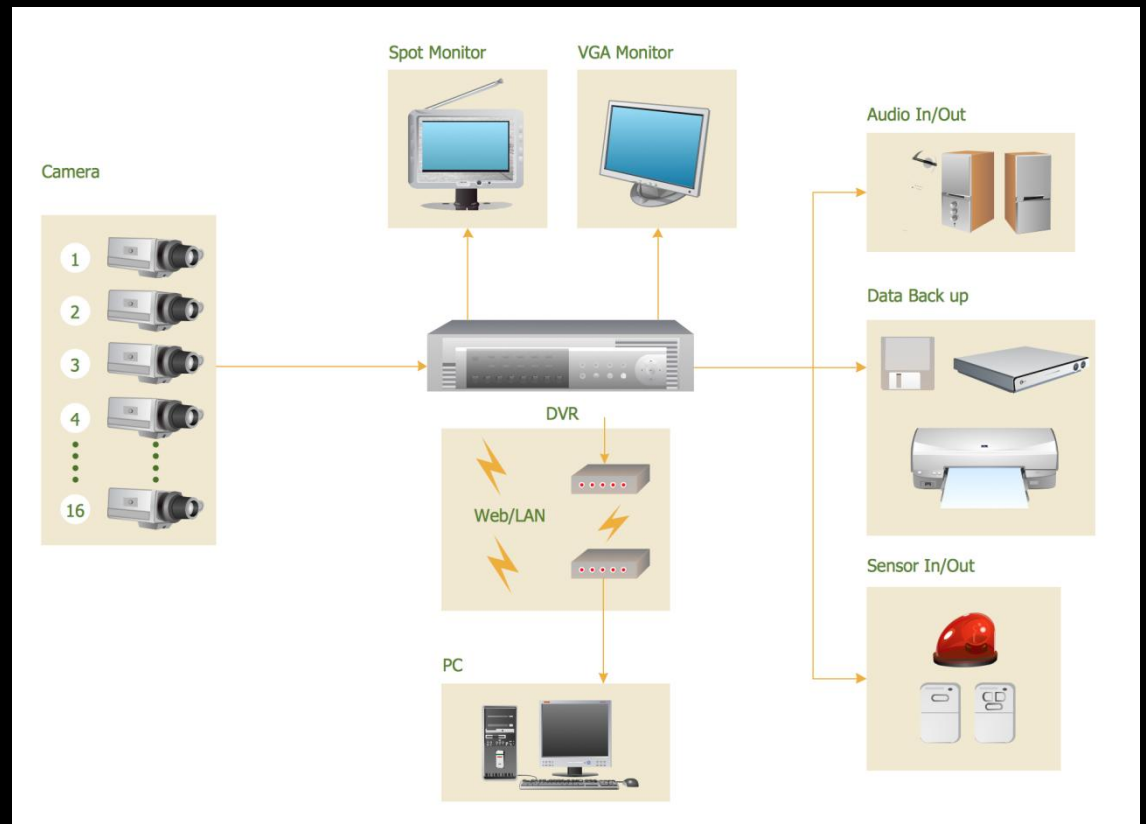

use `stream()`

```
//This will use just a single thread  
Stream<Integer> evenNumbers = numbers.stream();
```

or `parallelStream()`

```
//Automatically select the optimum number of threads  
Stream<Integer> evenNumbers = numbers.parallelStream();
```

@dgomezg

Reflection Report 23p

- Application of scrum
 - Roles, team work and social contract
 - Used practices (pair programming, stand-up meetings, etc.)
 - Time distribution (person / role / tasks etc.)
 - KPIs
- Reflection on the sprint retrospectives
- Reflection on the sprint reviews
- Best practices for using new tools and technologies
- Reflection on the relationship between *prototype*, *process* and *stakeholder value*
- Relating your own process to literature and guest lectures
- Evaluation of D1 – D3
- Documentation of sprint retrospectives, 0-1p
- KPI charts, 0-1p

Reflection

What is
What might or should be
Feedback to reduce the gap

Remember

- Put *everything* in your repo
- Or link to it from the repo
 - Make sure we have access to external material
- Use README to explain disposition
- Fill in personal contribution
- Deadline 27 Oct 17.00 CET

Don't let your repository die

!

Exit

Supervision: Open Arena 12 OCT 13-15

Demo: Lindholmen Navet 19 OCT 13-17

RELEASE: 27 OCT 17:00
